

## INTRODUCING THE HUSTLER

For the first time anywhere we proudly present, for your approval, at the National Snowmobile Show here in Minneapolis . . .The HUSTLER.

The growing interest in the recreational Vehicle Industry prompted our Company to engineer and design the most maintenance free, easiest handling, fastest in water, A.T.V. yet to come on the scene, at a price competitive with the market.

Height:	35"
Width:	53"
Length:	95"
Freeboard:	16"
Tire Pressure:	1 1/2 lbs. - Ground Pressure 1 P.S.I.
Ground Clearance:	6"
Turning Radius:	0"
Electrical:	12 volt system, key operated electrical start, sealed beam head lights and charge system for 32 Amp. battery.
Body:	Fiber glass reinforced plastic.
Engine:	Kohler 18 HP 309CC 2 cycle, electric starting (standard).
Fuel Capacity:	4 gals.
Transmission:	Auto torque converter combined with forward, neutral, and reverse gear box (featuring steerable reverse).
Clutches:	Rotary type ball actuated multiple disk, (never requiring adjustment).
Brakes:	Oversized 10" disk type.
Tires:	Firestone "Voyager" tires - 11x20".
Sprockets and Chain:	Pre-stretched #35-2 and #40. Sprockets are heat treated and oversized for less wear and maintenance.
Seating:	4 as standard equipment.
Land Speed:	35 MPH.
Water Speed:	2 MPH. ( <u>With optional MARINE JET PUMP 12 MPH</u> ).
Climbing Ability:	45 degree grade.
Transport Ability:	Will load on standard pick-up truck.

Leak proof aluminum cast double water seals.

If you have been shopping the A.T.V. lines and have found nothing but toys with high maintenance requirements we invite your attention to The HUSTLER. For less time in the shop and more pure pleasure with your lesiure hours choose The HUSTLER.
